

Mission statement

Smulders aims to be a solid and flexible partner by delivering unique and challenging projects for:

- **Offshore wind and renewables:** Smulders has realized an impressive track-record and market share in this young market. It is our goal to keep up this leading role in the future market.
- **Offshore oil and gas:** we will strengthen our position in the mature oil & gas market.
- **Civil and industry:** with a long history in realizing complex and challenging projects, Smulders focuses on maintaining its respectable market share.
- By targeting these complementary markets, Smulders will level out risks and achieve a sustainable growth.
